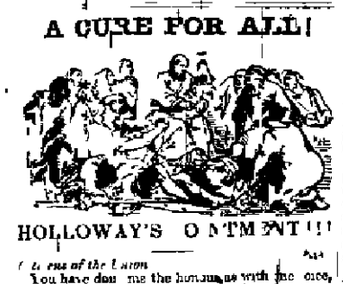
A CURE FOR ALL!



HOLLOWAY'S OINTMENT!!

Cures one of the Latest

You have doubtless seen the humbugs with the once, from one end of the Union to the other, to stamp each letter of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already it has obtained more celebrity than any other Medicine in as short a period.

THOMAS HOLLOWAY

Extract of a letter dated Lansingburgh, New York

ASTONISHING CURE OF SORE LEGS AFTER NINE YEARS STANDING.

Copy of a Letter from Mr. H. J. Langley, of Hants Cross, Davidson County, North Carolina, dated November 1st, 1853.

READ HIS OWN WORDS.

To Professor Holloway

Sir—It is not my wish to become a public character, neither is it my intention for the mere sake of writing, but you shall know that your Ointment cured me of one of the most distressing cases of leg that I have had for the last twenty-five years. I had suffered nine years with it, and had tried every thing I could hear of without any benefit, when I was induced to try your Ointment. I used it according to your directions, and it has entirely restored my leg to a state of health, for which I return you my sincere thanks, and to the world I can say that I believe it to be the most painful and troublesome disease to cure of any that I know of, and I do not believe there is any other medicine but Holloway's that can cure it. I have given your Ointment with equal success in other cases, and I have recommended it to many friends.

W. J. LANGLEY

ANTI-MERCURIAL CURE OF A BAD BREAST WITH NO MARKS AT THE POINT OF DEATH.

Copy of a Letter from Mr. R. Durand, New Orleans, 7th September 1848.

To Professor Holloway, 80, Centre of Anne and Nassau Streets, New York.

Sir—I feel with each gratitude I have to my fellow creatures, that the use of your Ointment and Pills has saved my life. For seven years past I have suffered from a cancerous complaint in my breast, which I used to use all the most approved means to cure, but without any effect, until I was induced to try your Ointment and Pills, which have entirely cured me. I have written this that the poor sufferers may know that there is a remedy for their complaint, and I shall be happy to see any of them at my residence, Bienville Street, New Orleans, where I shall be ready to give them my testimony, and I hope it may induce them to make use of your invaluable Ointment and Pills. I remain, Sir, your obliged and grateful servant,

R. DURAND

The Ointment should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Piles	Scalds,
Bad Breasts	Gout	Sore Nipples
Burns	Glandular Swellings	Sore throats,
Bites	Gravel	Skin diseases
Chilblains	Tic Doloureux	Scurvy
Chapped hands	Piles	Stone-bruises,
Contracted and stiff joints	Rheumatism	Tumors
Corns	Salt Rheum	Wounds

☞ Sold at the Establishment of Professor Holloway, 244 Strand and Nassau Street, New York, also by respectable Druggists and Dealers in Medicine throughout the United States and Canada at 37½ cents, 87½ cents and $1.25 each. To be had Wholesale of the principal Drug Houses in the Union.

☞ Purchasers should look well to the label on the pots and boxes, as there are spurious imitations of the name.

N. B. Directions for the guidance of Patients in every disease are affixed to each Box.

INGRAHAM & FULLER, Agents for Bangor.

CITY OF BANGOR.

AN ORDINANCE *for the reorganization of the Fire Department*

Sec. 1. Be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor, in City Council assembled, That the Fire Department shall consist of a Chief Engineer, and not less than three Assistant Engineers and of three companies, each of which is to consist of forty men, and of such additional companies, as shall hereafter be established by the Mayor and Aldermen.

Sec. 2. Be it further ordained, That the Mayor and Aldermen shall from time to time form such additional Engine Companies as the wants of the City may require, but no Company is to exceed forty men in number.

Sec. 3. Be it further ordained, That no person under the age of twenty-one years shall be admitted into any company belonging to the Fire Department.

Sec. 4. Be it further ordained, That the Chief Engineer shall be elected annually by ballot, in the month of March by the Council in convention, and at such other times as vacancies may occur.

Sec. 5. Be it further ordained, That the Chief Engineer shall have the power to appoint as many Assistant Engineers and designate their rank, subject to the approval of the Mayor and Aldermen, as there are Engine Companies.

Sec. 6. Be it further ordained, That the Engineers shall have, and exercise all the powers, and be subject to all the duties of Fire Wards.

Sec. 7. Be it further ordained, That the Chief Engineer shall appoint the Engineers, and shall have the power to discharge the same. But if any Fireman is aggrieved at the decision, he may appeal to the Board of Assistant Engineers who shall have power to reinstate him.

Sec. 8. Be it further ordained, That each Engine Company shall choose a Foreman, two Assistant Foremen, and a Clerk, all of whom shall be confirmed by the Chief Engineer. Each Company shall also cause a roll of its members to be made and kept, and call it after each fire, false alarm, and at each meeting of said Company, and note in said roll all who are absent.

Sec. 9. Be it further ordained, That each member of any company who shall be absent from any fire, False Alarm, or Meeting of said Company, unless for a satisfactory reason given to said Company shall be fined as follows,—Absence from a fire, three dollars; absence from false Alarm when the roll is called, twenty-five cents; and absence from each meeting of said Company, twenty-five cents. The Clerk of each Company, shall report quarterly to the Chief Engineer, all the absences of each member belonging to his company and what amount is due from such member, for fines.

Sec. 10. Be it further ordained, That the Chief Engineer shall be paid, annually, the sum of three hundred dollars, each Assistant Engineer, the sum of fifty dollars, and each Fireman the sum of twenty five dollars, on the first Monday of January of each year. But any Fireman who shall serve for a less time than one year, shall be entitled only to such compensation as the Chief Engineer shall determine. The amount due from each member for fines, shall be deducted from the amount due or his services. And the sums thus deducted shall be kept by the City Treasurer in a separate fund to be called "Firemen's Relief Fund," to be used for the benefit of those members who may be injured at fires, and such money, for that purpose, may be drawn from the Treasury by the Mayor, and appropriated, on the Chief Engineer's bill direct.

Sec. 11. Be it further ordained, That on the first Monday of May annually, at two of the clock in the afternoon, the Chief Engineer may order out all the Companies of the department with their respective Engines and other apparatus to exercise the members and no company shall appear with more than forty members.

Sec. 12. Be it further ordained, That it shall be the duty of the Engineers whenever any fire shall break out in the City to repair forthwith to or near the place where the fire may be, to cause the Engines and other apparatus to be arranged and worked in such manner as most effectually to extinguish the fire, to require and compel the assistance of all persons in extinguishing the fire, removing furniture, goods, or merchandise from any building on fire, or in danger thereof, and to appoint guards to secure the same, and in pulling down or demolishing any house or building or supposed tenement and disorder. And it shall be their duty to cause order to be preserved throughout the department in going to, working at, and returning from a fire, and at all times when companies attached to the department are on duty. And where any fire shall occur in either of the adjoining towns, it shall be the duty of as many of said Engineers to repair to such towns as shall have been designated for that purpose by said Board of Engineers.

Sec. 13. Be it further ordained, That in case of the absence of the Chief Engineer at any fire, the Engineer next in rank who may be present, shall possess his powers and perform his duties.

Sec. 14. Be it further ordained, That all persons who may be present at any fire, shall obey the directions of any Engineer, and render their services in extinguishing the fire and protecting property exposed thereto, in such manner as they may be required to do by any Engineer, and every person who shall refuse, or neglect so to do on request of said Engineer, shall forfeit and pay to the city the sum of Ten Dollars to be recovered in an action of debt in the name of the City Treasurer to the use of said City. And it shall be the duty of the Engineers to report to the Mayor and Aldermen, all such cases of refusal.

Sec. 15. Be it further ordained, That the Chief Engineer shall have the sole and entire control and command over all engineers and other persons attached to the Fire Department shall direct all proper measures for the extinguishment of fires, and protection of property, preservation of order, and observance of the fire laws, usages and regulations. He shall be his duty to examine the condition of the Engines, and other Fire apparatus, Engine Houses, and other buildings used by the Fire Department, and all the reservoirs, weekly, to keep the reservoirs free from snow and ice during the winter, to superintend the repairing and repairing of all machines and buildings used in the Fire Department, and all the city reservoirs. It shall be his duty to see that the Engines and apparatus are always kept clean and in order, or immediate use, that, on the return from fires, they are well washed, cleansed, and oiled, and so ready for use. He shall keep fair and exact roll of the respective Engine Companies, specifying the time of admission and discharge of each member, and report the same to the Mayor and Aldermen on the first Monday of January of each year, with the amount of fines due from each member. He shall report to the City Clerk once in each year all the accidents by fire which may have happened within the city, and the cause thereof, so far as it can be ascertained, and the number of buildings and the value of the property destroyed or injured, and the names of the owners if known.

Sec. 16. Be it further ordained—That the City Council, by a concurrent vote, may remove either of said Engineers.

Sec. 17. Be it further ordained—That the Mayor and Aldermen may from time to time, form as many Hose, Hook and Ladder, Bucket and Fire Companies as they deem expedient, to consist of such number of members as they shall determine.

Sec. 18. Be it further ordained—that the Engineers and members of the several Companies shall wear such caps and badges as the Chief Engineers shall direct, and the Mayor and Aldermen furnish. They shall be furnished at the expense of the city, and remain the property of the city. No other person shall be permitted to wear similar caps and badges except under such regulations and regulations as the Chief Engineer may direct.

Sec. 19. Be it further ordained, That it shall be the duty of the City Marshal and Constables of the city, on an alarm of fire, to repair forthwith to the place where the fire may be, with their staves or such other badges of office as the Mayor and Aldermen shall direct, and use their best exertions, under the direction of the superintending Engineer to preserve the public peace, and to prevent theft and the destruction of property, and assist in the removal of all suspected persons. For which services the Constables shall receive such compensation as the Mayor and Aldermen may allow.

Sec. 20. Be it further ordained, That if any chimney, stove pipe or flue, within the city shall take, or be set on fire, the occupant of the house to which such chimney, stove-pipe or flue appertains, or the person in charge of the same, to fire shall forfeit and pay the sum of two dollars. Provided, however, it may be lawful for any person to set fire to his chimney, stove-pipe or flue, in the forenoon of any day, when the contiguous buildings are not with him, unless notice will show. And it shall be the duty of the Engineers to report to the Mayor and Aldermen the names of all persons liable to the penalty provided by this section.

Sec. 2. Be it further ordained, That the power of making and establishing rules and regulations for the transportation and safe keeping of gunpowder, within the city of Bangor, and granting licenses for the keeping and sale thereof, in the city, pursuant to the provisions of law shall be exercised and performed by the Chief and other Engineers and the power and duty of storing any gunpowder kept of being within said city, or the harbor thereof contrary to the provisions of law shall be exercised and performed by and Engineers, or any one of them. And in case the seizure shall be made by any Engineer, other than the Chief, he shall forthwith report the same to the Chief Engineer who shall cause said gunpowder to be libelled and prosecuted in the manner prescribed by law. And all the other powers and duties conferred and granted by the laws of the State, in relation to the safe keeping and transportation of gunpowder shall be exercised and performed by the said Chief and other Engineers.

Sec. 22. Be it further ordained, That whenever it shall be determined by two or more Engineers, or by the majority of any greater number of Engineers present, at any fire, to pull down or demolish any building which may be on fire, or which it may be necessary to remove to prevent the spread of the fire, the same may be done by their joint order.

Sec. 23. Be it further ordained—That it shall be the duty of the Chief and other Engineers to inquire and examine into all shops and other places, where shavings or other combustible materials may be collected and deposited, and at all times to be vigilant in causing the removal of the same, whenever, in the opinion of any two of them, the same may endanger the city, and to direct the owner or occupant of such shop or other place, to remove the same, or cause the same to be removed, at his expense, under the direction of the Engineers.

Sec. 24. Be it further ordained, That when any chimney, stove, or stove-pipe, within said city shall be defective or out of repair, or so constructed or placed, that any building or other property shall be in danger of fire therefrom, it shall be the duty of the Chief Engineer, or any two Engineers of the Fire Department, to give notice, in writing, to the owner or possessor of said chimney stove or stove-pipe, to remove or repair the same; And if such owner or possessor shall, for the space of forty-eight hours after such notice, unnecessarily neglect to remove or effectually repair such chimney, stove or stove-pipe, he shall forfeit a sum not less than two dollars nor more than twenty dollars; and he shall be liable to a similar forfeiture for every week he shall so unnecessarily neglect to remove or effectually repair the same, after the termination of the said forty-eight hours.

Sec. 25. Be it further ordained,—That if said owner or possessor shall unnecessarily neglect to remove or effectually repair such a chimney, stove, or stove-pipe within forty-eight hours after notice as aforesaid, it shall be lawful for the Chief Engineer to remove or repair the said chimney, stove, or stove pipe, the expenses of which may be recovered by an action of the case by the City Treasurer against the said owner or possessor.

Sec. 26. Be it further ordained,—That all moneys received for fines, forfeitures and penalties arising under this ordinance, and the laws of the State respecting the storage and transportation of gunpowder, shall be paid to the City Treasurer, to be applied in such way as is or may be provided by law.

Sec. 27. Be it further ordained,—That whenever the members of the several companies shall assemble at the houses entrusted to their care, either on duty, company business, or and regularly shall be reserved. And it shall be the duty of the officers and members to refrain from unnecessarily assembling at said houses. And the utmost care and economy shall be observed in the use of fuel, lights and other property furnished by the city.

Sec. 28. Be it further ordained,—That any member of the City Council may enter within the lines, at any fire wearing a suitable badge to be provided by the Mayor and Aldermen.

Sec. 29. Be it further ordained, That no Fire Engine, or apparatus belonging to the city, shall be used in any trial or contest for superiority with any other Engine or be taken out of the city, except in order an assistance at fires in neighboring towns, unless by permit order of the City Council.

Sec. 30. Be it further ordained, That an ordinance establishing a Fire Department for preventing and extinguishing Fires," passed Oct. 9, 1853, an "An ordinance additional to the same passed Feb. 3, 1853 be and the same are hereby repealed.

Passed Feb. 22, 1854.

A true copy—Attest.

THE AMERICAN'S FRIEND!

HOLLOWAY'S PILLS.

To the Citizens of the United States—

I most humbly and sincerely thank you for the unusual patronage which you have bestowed upon my Pills. I take this opportunity of stating that my investors were all American Citizens, and that I always in for all that concerns America and the Americans, the most lively sympathies, so much so that I original compounded these Pills expressly for American constitutions, habits and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York.

THOMAS HOLLOWAY.

Corner of Ann and Nassau Sts, New York

PURIFICATION OF THE BLOOD,

—AND—

LIVER AND BILIOUS COMPLAINTS

The citizens of the United States suffer much from diseases of the Liver and Stomach, scarcely any are free from the influence of these destructive maladies, in one form or other. The fair sex, perhaps the most handsome in the world, and of a certain period, when, if it is to say, many lose their teeth or their good looks, or are yet in the prime of life. Such sad evils may be easily prevented by continually keeping the blood pure and the Liver and Stomach in a healthy action, which Pills will blow speedily and effectually. In consequence of this, where no eternal spring seems to reign,—As regards the preservation of the human frame and the function Pills, much can be effected, as I say fearless of contradiction, and I can be looked for any years beyond the ordinary limits if Holloway's Pills are taken to purify the blood according to the rules laid down for health contained in the directions which accompany each box.

A CASE OF WEAKNESS AND DEBILITY OF 10 YEARS STANDING CURED BY HOLLOWAY'S PILLS

Copy of a Letter from Captain John Johnson, Water Street, New York, dated January 5th, 1854.

To Professor Holloway, 80, Corner of Ann and Nassau streets, New York

Sir—It is with the most heartfelt pleasure I have in informing you that I have been so cured in less than one month by taking your Pills. For the last ten years I suffered from a bad derangement of the Liver and Stomach and was reduced to such an extremity that I gave up my ship, never expecting to go to sea any more, and had tried every Remedy that was recommended to me, but all to no purpose, and had given myself up to die, when I was at last recommended to take your Pills. After using them for three months the result is that I am now in better health than I have been for eleven years past and indeed as well as any person of my age. You are quite at liberty to make this known for the benefit of others.

I remain, all yours respectively

(Signed) JOHN JOHNSON

These celebrated Pills are wonderfully efficacious in the following complaints

Ague	Female Complaints	Scrofula King's Evil
Asthma	Fevers of all kinds	Sore throat and Mouth
Bilious Complaints	Gout	Secondary symptoms,
Blotches on the Skin	Headache,	Venereal Affections,
Bowel Complaints	Indigestion,	Worms of all kinds
Costiveness	Inflammation,	Weakness arising from whatever cause
Debility	Jaundice	
Dropsy,	Liver Complaints	
Dysentery	Piles	
	Retention of Urine,	

☞ Sold at the Establishment of Professor Holloway 244 Corner of Ann and Nassau Street, New York—also by the respectable Druggists and Dealers in Medicine throughout the United States, in Boxes at 37½ cents 87½ cents and $1.50 cents each. For the hard Wholesale of the so called Drug Houses in the Union.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

House-keepers, look at this!

Admirable Invention!

PATENT SELF HEATING

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of many of the ordinary and fashionable implements. But formulas have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron* which will relieve them in a very great degree, from the excessive and fatiguing labor of *Ironing* besides being a great saving of time and expense. This Iron combines economy convenience saving of labor and despatch, one cent's worth of dry charcoal supplies fuel for a whole day, constant ironing. Red wood ash from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters and Tailors' Irons are constructed upon the same principle and possess equal advantages.

John S. Sayward, Editor.

SATURDAY, APRIL 15, 1854.

Mercantile Association.

At the Annual Meeting of the Bangor Mercantile Association, 13th inst., the following gentlemen were chosen officers for the current year:

S. H. Dole, *President.*
G. K. Jewett, *Vice President.*
J. C. Fleet, *Secretary.*
F. M. Sabine, *Treasurer.*
Directors—J. S. Wheelwright, J. Fenno, W. H. Parsons, C. E. Dyer, J. Spear Ricker.
Arbiters—Isaiah Stetson, Solomon Parsons, Eben Pool, Moses Giddings, Cyrus Gove.
Lecture Committee—G. F. Sargent, Ebenezer Task, S. C. Hatch.

This Association having removed to the commodious and pleasant rooms which have been permanently fitted up for the purpose in Bowman's New Block, offer great inducements to the reading community.

The Reading Room contains some 40 (forty) daily and weekly Newspapers from different sections of the Union, also 14 (fourteen) of the most popular Periodicals of the day. The Mercantile and Social Libraries, united, number at the present, nearly 4000 volumes. By the report of the Librarian, 13000 volumes have been taken out the past year.

It is proposed to make large additions to the Library the ensuing season, and with a view to that end the Annual Assessments have been raised to $5.

☞ The Concert of the Billings and Holden Society in aid of the poor, on Fast Day evening was well attended and the performances gave much satisfaction. By means of this time-y and gratifying concert the sum of $151, was added to the funds at the disposal of the city missionary.

This is a capital thing for this society of good old singers to keep up their organization into which we can all fall when we come to the sear and yellow leaf of life, and preserve the melody of those good old tunes that gladdened the religious zeal of our fathers to awaken the public occasionally with their full and soul concerts and make us all feel better and do better. The concert on Fast day evening was particularly timely in aid of the funds for the comfort of the needy and as furnishing a rich musical treat to all the lovers of the concord of sweet sounds expression.

☞ The Shoals of Spring multiply. Rabin and Ice Pickers are getting to be plentiful in our city. The efforts of the Ice Pickers on the stream ice in the bright sunny days brings together a host of spectators leaning upon the railing of the bridge and looking like herrings string upon a stick.

☞ We would direct the attention of the reader to the notice of Mr. Adams of Portland to be found in another column setting forth his ability to furnish Fruit Trees, shrubbery, vines &c. This catalogue is quite full and satisfactory, and it is certain that the people of Maine ought not to neglect planting choice trees.

☞ Messrs. Henry Little & Co. have for sale machine made grafting cloth which is just the article and which every grafter of fruit trees should make use of.

We are indebted to the polite attention of J. W. Stinson of Oldtown for California papers. He informs us that there were seventy-five passengers on board the steamer Star of the West with him from California for the state of Maine. Thus the sons of Maine are returning from their long pilgrimage to the homes of their childhood and to those they love.

We gather the following items from the papers before us:—

A Small Bowl.—A correspondent of the Calaveras Chronicle, writing from Albany Flat says: Last week, a company of three, working on a side hill here, dug out, six feet beneath the surface, on the ledge rock, a stone vessel of rude construction, about ten inches in diameter. The ground was new and had no appearance of having been worked before—it has not indeed been worked since the first was first opened in 1850. The vessel has the appearance of soft stone. How it came there they found it, or by whom it was constructed remains a mystery to every one.

Banker Hill Canal and Mining Company bring the waters of the middle fork of the Mokelumne River to Sandy Gulch and vicinity. The canal is ten miles long, cost $11,000 and brings into contribution a rich and extensive mining district.

From the Mountain (Placerville) Democrat, we take the following:—

City Hill is abundantly supplied with water by the South Fork Canal, and those with claims are making from $10 to $25 per day to the hand. Owing to the want of water, this district has only been lately brought into use.

Coon Hollow. We are informed, by an old resident that there is now more successful mining going on at Coon Hollow than at any former period. There are very few who are not doing well.

The following items are taken from the Placer Herald:

Michigan City.—In Carr & Co.'s claim, eight men working, they have averaged $100 per day to the hand for a number of days past. Business of all kinds is brisk, and all hands are doing well.

Indian Remains.—The Stockton Journal says, we learn from Mr. J. B. Nichols that a quantity of Indian bones were discovered while ditching on the Calaveras, last week. The skulls bear a close resemblance to those of the aborigines of the northwest, and are thick enough to turn a bullet. They were found a out eighteen inches below the surface. The remains of extensive rancheria in the vicinity indicate that a large population at one time resided on the Calaveras.

Mr. Nichols says there will be ten times as much grain raised on the Calaveras this year as there was last year. Some of the farmers have single fields of 800 acres in wheat, besides oats and barley.

A rock, weighing 400 lbs. and variously estimated to be worth from twelve to eighteen thousand dollars, was recently taken from a tunnel near Nevada.

A Mexican miner in Bear Valley, Mariposa co., found a lump of pure gold on the 4th inst., weighing three pounds.

PORTLAND, April 12.

Mr. Marshall Reed, the depot master of the Portland, Saco and Portsmouth Railroad depot in this city, was killed this afternoon at Biddeford, having been crushed between two cars, while in the act of shackling them. He was a married man, and leaves a family to deplore his untimely death.

HALIFAX, TELEGRAPH OFFICE, April 14th, 1854.

The mail steamship America from Liverpool on the morning of Saturday, April 1st arrived at Halifax early morning the 14th of twenty o'clock.

The steamship Anglo-Saxon arrived at Quebec on the morning of the 29th of March.

The steamship Arctic arrived at 1 o'clock on the morning of the 30th.

The steamship Hermann sailed from Southampton the 29th.

The Cunard screw steamer Genoa sailed from Liverpool for Malta, and the Cambria sailed from Kingston, both with troops. The 4th regiment of dragoon guards are daily expected to embark at Liverpool for Belgium.

THE WAR.

The Russians in Southampton carried out the form of a declaration of war of France and England against Russia. Also a notification that the ships of war will assist that Russian ports, except central and articles of war, will be regarded under neutral flags, and that the ships of merchantmen are exempt from capture until day 10th.

The war is to be carried on in accordance with a treaty between the Porte, France and Great Britain, signed on the night of March 12th, containing five articles, viz:

1st. Engagement of France and England to support Turkey, by force of arms until the conclusion of a peace that shall secure the independence and integrity of the Sultan's dominions.

2d. The Porte shall not conclude a treaty of peace with Russia with the consent of her allies.

3d. The allies shall evacuate the Turkish territories, on the conclusion of the war.

4th. The treaty is to remain open for adhesion of other powers of Europe.

5th. Triple guarantees to all subjects of the Porte, without distinction of creed, perfect equality in law.

Several protocols are attached, regulating details. Meanwhile, the campaign has opened in earnest.

It is confirmed that the Russians have crossed the Danube in great force, the object being to strike a decisive blow before the arrival of the Anglo-French force.

On the 8th the Russian detachment under Gortschakoff forced a passage of the Danube above Turnu, captured eleven guns, two hundred prisoners and occupied Tultcha, and seized the right bank.

General Luders crossed with the main body of the army from Galatz without much loss. Not less than 50,000 Russians are now on the Turkish bank.

On the 24th, Luders began preparations for the siege of Isaccha.

On the 23d the Russians attempted to cross the Danube at Glurgitza, when a desperate battle ensued. The Russians were repulsed. The engagement was sanguinary. The Russians lost three thousand men, while the Turks themselves were so badly cut up that they had to retire to their fortresses. It will be seen, however, that the Russians have effected a passage at three points.

On the next day the 22d, when the Russians commenced to cross the Danube, Omer Pasha had intended to attack the Russian head quarters at Polanza. The plan of battle was drawn up and the entire force put under the command of Colonel Chesney, a Frenchman, but the Russians moved first and counteracted the plan.

A despatch from Omer Pasha dated the 31st, says: "The Russians have lost all desire of attacking Kalafat, and phrases crossing the Danube at Oltenitza. If they should really do so they would render me a great service by enabling me to use a sound shaft sent to the bottom of the river, who have broken into our house like robbers. But if the Russians do not resume the offensive, I shall undertake nothing important until the arrival of our reinforcements and cavalry."

From the above it seems Omer is preparing. He has 1,000 men on his right wing with a line of works connecting the Dobrudscha with Silistria and Shumla.

IMPORTANT FROM CIRCASSIA.

Lord Russell receives Simson reports by telegraph, that the Russians were abandoning their forts on the east coast of the Black sea. Southern Kuban has risen in arms and the Circassians plundering it furiously. A steamer was sent to gather further information. This is later than the information given in the British Parliament, which we see.

The allied fleets remained at Beyros.

There were rumors, not credible, of Turkish proposals to attack Sebastopol.

The British frigate Retribution, found the Sulina mouth of the Danube impassable.

Nicolai's loss, at last accounts, 20,000, was as under the ice. It is supposed destination was to raise the siege of Aland. Kings Bay is named as the place of rendezvous.

Lord Bloomfield, British Minister at Berlin, telegraphed to Napier the declaration of war will instantly cause commence hostilities.

The Steam cruiser making steam preparations for hostilities in the Pacific sea, it was supposed that the first collision would occur at Oesel island. All lights in the lighthouses and buoys are removed and formidable fleets of gunboats are collected in shallow waters at principal points. Masses of rock are dragged along the ice to intricate parts of the chain into block it when the ice shall melt. All hamlets in Courlandt not capable of defence are pulled down. New batteries are every where erecting and two hundred additional gunboats ordered forthwith. The Czar and his suite are personally superintending preparations.

Discontent prevailed in Finland against the Russians. Some arrests had been made.

Accounts from Greece are unfavorable. The Turkish Minister had demanded his passports and left Athens. The Greek insurrection was reviving, but the Turks hold the Dereenie and have 8000 troops in Epirus. They have had as yet only one or two unimportant encounters with insurgents. An Anglo French occupation of the country was not improbable.

Envoys were daily expected at Athens with final commands of the English and French governments. It was given out that several nobles have joined the insurrection.

Fifteen thousand French troops have already embarked and the remainder of the army of 50,000 will be in Turkey by May first. Four thousand were landed at Gallipoli, 27th.

It was reported that the British land force will be increased 30,000 men. The first Division of the Expeditionary force is being rapidly forwarded from Malta to Constantinople. English cavalry regiments are to march through France from Boulogne to Marseilles, thence by steam to Gallipoli.

The Sultan has betrothed his daughter, Princess Munirah, to Ilhmi, eldest son of Viceroy of Egypt.

GREAT BRITAIN.

It was rumored that Lord Aberdeen would resign, but the Globe, the government paper, contradicts the report.

London papers are full of proclamations, &c., regulating details of war. Some further official despatches of the Russian series are published, but show little new.

Parliament had moved an address to the Queen in answer to the declaration of war assuring her of the Nation's determination to cooperate in a vigorous resistance to the projects of Russia, whose further aggrandisement would be dangerous to the peace of Europe.

In the House of Lords, Earl Malmesbury asked if it was true that the fleet had left Sebastopol to operate on the coast of Circassia.

Earl replied that government was so informed.

Ten Russian ships from Sebastopol were reported near Perek mouth of Black sea.

Combined fleet were at Beyros bay. Admiral Lyons having just returned from cruise.

In Commons Attorney General give opinion that sale of Russia ships to neutral parties, if bona fide would be protected in law. Attorney General further states that Britain does not, and cannot forego the right of search of neutral vessels for contraband of war.

Bill to double the income taxes had passed the house of Commons.

Banquet is to be given to the Earl of Elgin by persons connected with Canada, Lord John Russel will preside.

At Queen's drawing were presented by Countess Clarendon, Mrs. Daniel E. Sickles, Madam Bagioli, Mrs. Upham, Mrs. Caroline and Amelia Denny, Misses Sickles, Upham N. L. Upham and Welsh attended.

Ship Isaac Webb at Liverpool had sixty-five passengers from wreck of Russell Sturgis from Liverpool-Feb. 21st. For Boston. Capt Snow and crew of Russell Sturgis, taken on board the Rainbow for Valencia. Ship Megatta from Newport at Plymouth has the master and six of the crew wrecked Swedish ship Julia, lost on passage from New Castle for New York.

FRANCE.

The French government makes a similar announcement with the British respecting the commerce of the neutrals. Also will not at present issue Letters of Marque.

The Minister of Finance reports that 90,000 persons have subscribed to the loan subscription amounting 467,000,000 francs, twice as much as is wanted. Minister of Marine has addressed a circular to Chambers of Commerce highly approving the United States for refusing Letters of Marque.

The Greatest activity prevailed in fitting out expeditionary army.

There was no other news.

SPAIN.

The following was telegraphed from Madrid, 25th: "The Czar has an nested all the prisoners implicated in the Lopez invasion of Cuba."

ITALY.

The Sardinian government's demand for a loan of $7,000,000 is sanctioned by the Legislature.

M. Wechbrecker, Austrian Consul at Smyrna during the Kossta affair, is appointed Austrian Consul at Genoa, but the Sardinian government refuses his exequatur.

The Duke of Parma is dead from the wound of an assassin. The Duchess is Regent during the minority of her son Robert. The Ministry is dissolved. Baron Werr is ordered to quit the country forever. This expulsion pleases the people. Balsi is appointed Minister of Foreign Affairs and Pasquinini of the Interior.

SWITZERLAND.

Switzerland continues perfectly quiet to foreign politics.

AUSTRIA AND PRUSSIA.

Have not yet committed themselves by any overt act.

DENMARK.

The King has made no change in his Ministry.

ENGLISH MARKETS.

Liverpool Cotton Market. Impression continues with demand limited and prices irregular, sales being generally not fully 1d lower. As yet had been no great pressure of realizing. An large amount of cotton was daily on offer at market rates. Futures to close of market turns entirely on question of speedy or lengthy continuation of war. Quotations—fair Orleans 6¾d; Middlings 5¾; Mobiles &c.

Manchester. Brown, Sulpley & Co's Circular says that the market had been much excited, and rallied from extreme depression of previous week 18d on wheat, 6s 8d on flour, 5s on corn.

Western Canal flour 38s a 38s 6d; Philadelphia, Baltimore, Ohio, Canada, 38s 6d a 39s; sour 35 a 37s.

White Indian corn 43s a 44s; yellow 43s a 43s 6d; mixed 42s 6d.

White wheat 10s 9d a 11s 9d; red 9s 9d a 11s.

Wheat and flour closed in good demand.

Corn quiet. Weather extremely fine and arrivals large.

Provisions. George Badenoch's Circular quotes a large business in beef on the spot at slightly advanced rates. Sale of a thousand tierces Dominicks 120s to arrive. New Cleveland brands 106s. No demand for old.

Pork quiet with trifling sales and prices easier.

Bacon sold at a reduction of 2s.

Ashes 31s a 33s 6d Pots; 28s 6d a 30s Pearl.

Manchester trade quite inactive.

London. Baring & Brothers report no cotton and foreign produce market effected by declaration of war. Sugar, coffee, cotton and teaddull. In breadstuffs, rice, and saltpetre large business at advancing rates.

Russian produce dearer.

Money. The Baringe report money rather easier. Consols again declined and leave off at 85¼ a 86. Dollars scarce 5s 3farthings. Bar silver 5s 1d. In American securities business is almost totally suspended and quotations in most cases little more than nominal.

Government Stocks continued to sell for remittance, but no demand for other securities which are offered at lower prices.

Freights—Rates well supported without much change. Steerage passengers continue to offer freely.

THE LATEST.

[BY TELEGRAPH FROM LONDON.]

War was formally proclaimed at the Royal Exchange to-day (Friday 30th) in presence of the civic authorities.

CONGRESSIONAL.

WASHINGTON, April 11.

SENATE.

After some discussion, the bill to reduce the duties on railroad iron was finally taken up, when Mr Douglas moved to amend by striking out a latter the enacting clause, and substituting a new bill, allowing a drawback or refunding the duties, where actually paid on all iron imported since the 31st of July, 1853, which has actually been used in the construction or repair of any railroad, and suspending the duty altogether on all railroad iron which shall be imported from the passage of the act until the first of July, 1857. Mr D explained the reasons for his substitute and stated the advantages that would accrue to the whole country from its operations.

Mr Badger said he preferred Mr Douglas' substitute to the bill reported by the committee.

Mr Hunter said he voted under instructions and but the amendment came nearer his instructions than the original bill.

Mr Seward was opposed to the general principles of the bill because it would have the effect of rendering the business of manufacturing railroad iron in this country uncertain and unreliable.

So far as the railroad in North Carolina is concerned, to benefit which this measure was especially brought forward, he thought it reasonable and just; but did not see why, because a railroad in the state was in need of this bill, the capitalists of Boston, New York and Philadelphia, who were engaged in railroad building, ought not also to receive a similar boon at the hands of Congress at the cost of the other interests of the country.

At the conclusion of Mr Seward's speech, a discussion ensued on a motion to postpone the bill in order to give the interests from Pennsylvania an opportunity to speak on it.

Mr Rusk wanted time to prepare a new bill which would cover the whole subject of railroads in the United States, including propositions for the transportation of the mails on the said road.

It was true that Congress did something to rescue mail contracts from those companies that refuse to carry the mails on the terms proposed by government, or who would not be government in their transportation by any rules but those of their own adoption. A further discussion on the merits of the bill ensued, in which Messrs Badger, Pratt, Weller, Bell, Douglas and Bayard participate. The bill was finally postponed to Monday week, and the Senate adjourned.

HOUSE.

Additional documents were received from the President relative to the Crescent City affair.

Mr Bennett's Land bill coming up in order, a motion to lay it on the table was lost by a vote of 76 to 83. It was then postponed for two weeks.

The House then went into committee on the Appropriation Bill, when Mr Cullum of Tennessee spoke on the Nebraska Bill, which he denounced as a nefarious project, the work of certain politicians to satisfy the legislation of the country for their own personal aggrandizement. Mr G. made an impassioned and effective speech replying to Mr Chingman, and rating the author of the bill in severe language.

When he had concluded, Mr Benton approached him and shook him heartily by the hand. Nothing was afterwards done, and the House adjourned early.

WASHINGTON, April 12th.

In the Senate, the Chair presented a letter from Hon. Truman Smith, resigning his seat in the Senate, to take effect on the 5th of May next.

Mr. Foot submitted a resolution directing an inquiry into the expediency of making an appropriation for the purchase of a site and the erection of a custom house at Burlington, Vt.

Mr Pettit presented petitions praying that some steps may be taken to colonize and civilize the Indians on Pugent's sound in Washington territory.

Mr Fish's resolution, offered on Monday, calling for the correspondence held by Mr Barnard, the Minister of the United States was taken up and adopted.

Mr Hunter reported back the Indian Appropriation bill, with amendments.

The bill for the relief of John McAvoy was taken up and passed.

Mr Pratt presented a memorial from the merchants of Baltimore and others asking for the repeal of all duties on diamonds and other precious stones.

Mr Rusk introduced a bill providing for the transportation of the United States mails and mail roads.

Mr Rusk's bill provides that all railroad companies which shall contract with the U. States to carry mails, troops, munitions of war, &c., free of charge, and allow the Postmaster General to regulate the number and times of transportation, shall be allowed to import free of duty all iron required for the use of such roads and to all double track roads who shall contract as aforesaid, there shall be granted six sections of public lands for each mile of said road. The bill was referred, and the Senate adjourned.

HOUSE.

In the House, Mr. Columbia Lancaster, delegate from Washington territory, was introduced in the House to-day, and took the oath to support the constitution.

The bill empowering the Post-master General to contract for carrying the mail between New Orleans and San Francisco, according to the time occupied in transit, was then taken up.

Messrs Hunton and Phelps opposed the bill on the ground that it would cause enormous increase of the expenses of the Post-office Department. The bill was then tabled by a vote of 89 to 59.

The House next went into committee on the bill Graduating the Price of Public Lands according to the time they have been in the market and after a debate, adjourned.

Maine Legislature.

SENATE.

TUESDAY, April 11.

The committee on Education reported resolves in the favor of the Foxcroft Academy, Litchfield Literary Institute, Livingston Academy, Oxford Normal Institute, Lincoln Academy, Yarmouth Institute Nottingham Female Academy, Portland Society of Natural History, (giving to each a half township of land,) and to Readfield Seminary and Orleans Institute two half townships—to Lyndon Academy $500—to Waterville College two half townships—to Big Lake and other parsonages in the county of Washington $50 each for support of schools, which were severally read and half past 2 o'clock this day assigned for a second reading.

Finally passed—Bills, to incorporate the Bethel Boom Co; to make valid the doings of the town of Richland; additional to an act to establish a Free Bridge from Bar or Ft Island to the main land in minot, Poland, Danville and Durham; to set off certain territory from Paramond and annex to Washington to incorporate the Searsport Mill Company. Adj.

HOUSE.

Bill repealing the establishing Board of Agriculture, was indefinitely postponed in consequence with the Senate. [On sequestering resumed, on motion of Mr. Hill and the subject laid on the table.]

Finally passed—Bill additional to an act to incorporate the West Lincoln Agricultural and Horticultural Society; additional to the 125th chapter of revised statutes; and to amend an act of Bath to determine how far wharves and piers may extend into the Kennebec River.

A message was received from the House that the Senate had amended the bill to incorporate the White Lime Rock Co; by substituting the word "persons" for "corporation" and had ordered the same re-engrossed. The House concurred. Adj.

Important from Mexico.

NEW ORLEANS, 12th.

Private letters from Mexico are very confidentiy as to the Alvarez insurrection. It is stated that a telegraphic despatch was received at Vera Cruz just before the Texas sailed, announcing the cessation of hostilities between Santa Anna and Alvarez in consequence of concessions made by the former.

On the other hand, some letters say that Alvarez was strongly fortified at Peregrina, making every preparation for a determined resistance. The general opinion seems to be that Santa Anna will be defeated and finally overthrown.

HARPER'S LECTURE.—The closing exercises on Tuesday evening before the above Association, consisted of a Lecture by Dr. Sewall, and a Poem by M. W. Fuller, Esq. of Bangor. The former is spoken of as an able and eloquent address upon the claims of the age upon young men.

Mr. Fuller's Poem was the witty satire which we noticed at the time of its delivery before the Mechanic Association of this city.

CARD.

The "Billings and Holden Society" return their thanks to the members of the several Choirs in the city, and also to Mr. Clarke, of the Bangor Brass Band, for their several efforts and efficient aid rendered at the Concert on Fast Day evening; also to the citizens generally for the liberal patronage they bestowed, by which the society were enabled to contribute one hundred and fifty dollars to the funds to be expended by the City Missionary.

HENRY BUTLER, Secretary.

Bangor, April 14, 1854.

FISHOLOGY.

The winter has passed and gone
And Spring has come with the Fish!

Thomas Bickford

Tenders his professional thanks, with high considerations of respect, to his numerous friends for the support and patronage they have given him in his *Fishy* way.

FRESH FISH!

The spring time, with its cool water, and the hues of the singing of the birds, a beginning to appear like the opening of a rose; and

"Forthwith the sounds, and seas, each creek and bay
With fry innumerable swarm, and shoals
Of Fish, that with their fins and shining scales
Glide under the green wave, in sculles that oft
Bank the mid sea."

My arrangements are completed with the brave fishermen, in all the localities named above, so that no stable man and lover of good Fish, John Bull, who, if alive, would be among my fish customers. Fish Market supplied with the best and brightest Fish at the season—

CODFISH, HADDOCK, HALIBUT, MACKEREL, LOBSTERS, &c.

The collected wisdom of the State, assembled at Augusta, in consideration of my determination to furnish the best *Fresh Fish* to the citizens of Bangor, through my market arrangements and fleet runners, I have been refused to receive the catching of the *shad season* by the Legislature. Thus my efforts are much cut and circumscribed by great odds, and that prevents my being respond to any one in the Fish line.

Pickerel, Trout, and Lake Fish

shall have my engaged in fishing for them in all parts.

There on the Penobscot lands, the FISHY streams,
The pastoring mountains and the fertile plains,
With shadowing soft, clad with Titan's beams,
As of Heaven's pleasures figure, and of hell's pains

which, by a practical license common among FISH-mongers, means those who find in the free warmth of the North, and even those who sink most deep in the Arctic seas, but I have FISH for men of all ranks, and all sects and all colors, and good FISH—well fed and plump—Clams, Lobsters, &c., &c.

Every FISH in season within the bounds of reason and I wish you one and all, to make a business call at the

☞ CAPTAIN'S OFFICE.

April

CARD.

REMENWAY & HERSEY take this opportunity to tender their thanks for their numerous favors and respectfully ask, and solicit a continuance of, the very liberal patronage they have had heretofore received. They would now invite attention to their new and elegant Hat Rooms, at No. 3 Exchange Block, at the corner of Exchange street and Kenduskeag Bridge. These Rooms have been fitted up in the most approved modern style, for the accommodation of our friends upon the East Side, and together form one of the most convenient and attractive establishments of the kind in the State. Here we shall keep constantly on hand a very large, rich, and well assorted stock of every variety of goods in our line of trade.

We may also be found at the *Old Stand*, No's 18 and 20 Main street where we shall continue to keep the same rich and extensive assortment of Goods as heretofore.

REMENWAY & HERSEY.

Bangor, March 31, 1854.

Holloway's Ointment and Pills a certain Cure for Emptions and all diseases of the Skin—Extract of a letter from Mr. J. Hird, Amner, Keady, dated February 14, 1853. "To Professor Holloway—Sir,—My child, when three months old, was afflicted with severe eruptions all over the body. I sought every aid, and the advice of surgeons and physicians, by all of whom the case was considered hopeless. I then tried your Ointment and Pills, and without exaggeration, the effect was astonishing, for in a short time she was restored to perfect health. Mr. Bowden, bookseller, Gainsboro, or myself, would be happy to satisfy any inquiry as to the truth of this statement."

☞ See advertisement.

☞ To the Ladies.—Hurd's Golden Gloss for the Hair, is a preparation which has no equal. It is highly perfumed, and imparts the fragrance of the most delightful flowers. It makes the hair
soft, glossy, and silky,
and causes it to grow luxuriantly, preventing it from falling off or turning gray. It removes dandruff, prevents splitting, tearing, and keeps the scalp clean, smooth and healthy. It has cured thousands and such headache by a single application. Ladies who learn its value in this respect will never be without it. Price 25 cts. W. C. HURD, Proprietor, 304 Broadway, New York. B. E. PHERRIN, Agent, Bangor.

April 1

To E. L. Hamlin, one of the Justices of the Peace within and for the County of Penobscot.

THE undersigned, members of the Kenduskeag Log Driving Company, request you to issue a warrant to some of them, directing him to call a meeting of said company, to be held at the counting room of Stetson & Co., in the city of Bangor, on SATURDAY, the twenty-ninth day of April next at ten o'clock in the forenoon, to make choice of all officers necessary for the business of said company, and to act upon such other matters as may be legally brought before said meeting.
S. THURSTON,
A. A. WING,
L. J. MORSE.
Bangor, April 11, 1854

STATE OF MAINE.

To Aaron A. Wing, of the city of Bangor, in the county of Penobscot, and one of the members of the Kenduskeag Log Driving Company:
Whereas Aaron A. Wing, Samuel Thurston, and L. J. Morse, members of the Kenduskeag Log Driving Company, have applied to me, the subscriber, Esq., one of the Justices of the Peace within and for said county, requesting me to issue a Warrant to you, the said Wing, directing you to call a meeting of the members of said Company, to make choice of officers necessary for said Company, and act upon such other matters as may legally come before said meeting, to be held at the counting room of Stetson & Co., on Saturday, the 29th day of April instant, at ten o'clock in the forenoon:
You are therefore hereby required to notify and warn a meeting of the members of said Company, to be held at the time and place and for the purposes aforesaid, by publishing a notice thereof in the Daily Whig and Courier, a newspaper printed in said Bangor, two days at least successively, the first publication to be before the day of meeting. And have you there and then warrant with your doings thereon.
Dated at Bangor the twelfth day of April, in the year of our Lord one thousand eight hundred and fifty four.
E. L. HAMLIN,
Justice of the Peace throughout the State.

NOTIFICATION.

Pursuant to the foregoing Warrant, I do hereby notify the members of said Kenduskeag Log Driving Company, to meet at the time and place and for the purposes aforesaid.

20,000 Copies in 2 Days!
Uncle Tom's Cabin
—BY THE—
LAMP LIGHTER.

THE MOST EXTRAORDINARY AND startling tale of modern times.
We have no hesitation in pronouncing "The Lamp-lighter" one of the most original interesting, graphic, and affecting tales that has lately appeared.—*Boston Daily Evening Traveller.*
For delicate and forcible delineation of character, this work is hardly excelled.—*Boston Journal.*
The "Lamp-lighter" will shed many a ray around firesides and in hearts, where now it may be there is touch of darkness and despair.—*Boston Daily Bee.*
The Life of "Little Gerty," as portrayed in "The Lamplighter," is so deeply affecting as the best sketches of Dickens.—*Boston Daily Advertiser.*
The "Lamp-lighter" teaches important truths which cannot be too frequently impressed upon the minds of all—and in that clear and concise manner of diction, and that choice selection of words which indicate the good English scholar, in contrast to the supernatural Uncle Tom's Cabin.—*Boston Daily Bee.*
☞On the receipt of one dollar we will forward a copy of the *Lamp-lighter*, either by mail or express, as directed to any address.

BRIGGS
Green Mountain Vegetable CEMENT.
FOR cementing Broken China, Glass, Earthern Ware, Metals, Wood, Cabinet Work, and Fancy Articles of every description. This Cement, which has been proved to be of great strength, will be found particularly useful in every family. The simple manner of its application alone recommends it. The adhesive property which it contains is so wonderful that many things which rather break in a fresh place than where they have been mended with it. The variety of purposes for which it may be used, are so many, that it would be difficult to recite them. Invaluable in mending Glass, China, &c., extraordinary in ordinary degree of heat affecting it, and as the joint is scarcely perceptible, articles of the kind may be made useful for years which otherwise would have been cast away. The above article may be had wholesale or retail, of GEO. W. EMERSON, No. 4 Smith's Block, General Agent for the State of Maine.

India Rubber Goods.
SPRING TRADE, 1854.

D. HODGMAN, 27 *Maiden Lane* and 59 *Nassau Street*, invites the attention of his former customers and merchants generally, particularly Wholesale Buyers, to his immense stock of India Rubber Goods, which he has now on hand and is daily receiving from his factories, consisting of

COATS,	LIFE PRESERVERS,
CAPES,	SHAWLS,
GLOVES,	CARRIAGE CLOTH,
PANTS,	PIANO COVERS,
OVERALLS,	MACHINE BELTING,
LEGGINGS,	ENGINE PACKING,
CAPS,	CROTON HOSE,
SLEEPING JACKETS,	

And every description of Rubber Goods manufactured.
The reputation of my Goods for their excellent quality, is so well established as to render any further commendation entirely superfluous. I feel assured that great pleasure to inform Wholesale buyers of
Rubber Clothing,
That I am enabled to offer them much more cheap than superior to what I have heretofore, and will firmly believe superior to any that have been or can be offered them elsewhere.
Orders respectfully solicited and attended to with prompt prices and despatch by
D. HODGMAN,
27 *Maiden Lane* & 59 *Nassau Street, New York*
feb23 3m

Important Bargains Offered.
LOTS of Land for Rural Dwelling Houses with large Fruit and Vegetable Gardens, adjoining the city, mostly on the continuation of French St. and Broadway, and a street laid out, 75 feet wide, in the range with Broadway, (as it runs from State Street to the Park.) This street is laid out about 160 rods through my lands, extending over the westend of Mt. Pleasant. This land is north of and much higher than the Park, having a commanding view of the city and surrounding country.
Also, land for Orcharding and Farming, on the new Stage Road to Oldtown running by Coombs' Mills, situate beyond and near the first considerable elevation, having a view of some part of the city on its western side. This land is considered as good as the farm on which I live, where I have raised over 40 bushels of wheat to the acre, (as may be seen on the books of the P. A. Society,) and oats, hay and potatoes in that proportion. Some judgment may be formed also of my land for Fruit Trees on my lot near the city, by examining my bearing trees and our Fruit Nurseries.
My land East of the Mills has a considerable growth of wood on it, and some timber for frames. We can go three turns a day, taking one of the easiest roads running out of Bangor.
Liberal terms will be given on it, and the size of the lots made to suit purchasers.
N. HARLOW.
Bangor, March 25, 1854
☞If any person, not advanced in life, should appreciate the probable results of a few years good business in Bangor, of purchasing land from an original lot, beginning at East Market Square, (the northerly part of Lot No. 68, Holland's Plan, is referred to,) where three leading and important streets are laid out passing into or great and important northern and western country, he can now do so. These streets will afford some of our finest seats for elegant Houses and valuable Fruit Establishments, without exception. It is only a strong wish to be relieved from part of my cares, and that of closing business of this kind which could induce me to sell at this time by the quarter.
N. H.

GAS!!

Gas-Fixture Establishment.
CHANDALIERS, Pendants, Brackets, &c. of every variety, just received and constantly receiving, direct from the best manufactories.

KENNELLY'S Wonderful Salve

The Greatest of the Age.

MR. KENNELLY of Roxbury, has discovered in the place of common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common Pimple. He has tried it in over *eleven* hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within *twelve* months. Doctor.

Two Bottles are warranted to cure a running sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the worst kind of blotches.

Two bottles are warranted to cure the worst kind of ringworm.

Three to five bottles are warranted to cure all humors in the eyes.

One to two bottles are warranted to cure running in the ears and blotches on the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate cases of chilblains.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing is less so improbable to those who have in vain tried all the wonderful medicines of the day as that a common weed, growing up in the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact.—If you have a humor it has to start. There are no ifs nor ands about it, it must cure, but not yours. He has published over *Ten* hundred bottles of it in the vicinity of Boston, and knows the effects of it in every one. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen many looking children spring up like a weed soft and healthy, restored to perfect health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in croup and hoarseness. Some who have taken it have been troubled for years, and never found so regulated before. We are the body is healthy and free from pimples, but where there is any derangement of the functions of nature, it will cause very slight feelings, but you must not be alarmed—they always disappear in *Four* or *five* days a week. They never had result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extraordinary testimonials of it that ever man listened to.

No change in diet ever necessary. Eat the best you can get, and enough of it.

ROXBURY, Sept. 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my laboratory.

(Signed) DONALD KENNELLY.

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but will not forever.

Boston, Jan. 5, 1853.

Having had occasion to observe that some persons affected with Hernia, have suffered much from the want of a skillful bandager, on account of adapting Trusses to the peculiarities of these cases, I have taken pains to inform myself of the comp. tence of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Smith—After a number of months of careful observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and inspiring no uncomfortable feelings in the patient, I can with better confidence call upon to recommend him to my professional brethren, and to the public as a person skilled to supply their wants in regard to this important article.

JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the notice of the public and institutions, the above advertisement, as we have found the advertiser to be a gentleman of strict integrity and fair dealing. We have employed him (some of us for twenty years) and therefore speak from personal knowledge of his skill as a practical Bandager. His early advantages, his long experience in the business and the large number of persons whom he has relieved in a variety of cases, rendered him in no ordinary degree, if not superior, to any manufacturer of this article.

Rev. Hosea Ballou, 2d, Rev. Thos. Jones, Rev. Sylvester Judd, Jr., Rev. Chas. Lowe, Rev. Thos. Barnes, Rev. Thos. Gaskill, Rev. Jas. Freeborn, Rev. Chas. Emerson, Rev. Geo. W. Quint, Rev. Jos. Cook, Rev. Geo. Putnam, Rev. Thos. Dowe, Rev. Thos. Sawyer, Rev. Geo. Rogers, Rev. Thos. Dixon, aged 72, Rev. Andrew Eddy, aged 53, Nathaniel Mayo, " 70, Benjamin Southworth, " 48, James B. Taylor, " 40, Joseph Loring, " 66, Samuel Parmele, " 72, Isaac Ferris, " 70.

Charlestown, March 1, 1848.

The undersigned have sold 5000 Trusses that have bought Trusses of him within the past thirty years, now in all parts of the United States.

☞ Persons ordering the Trusses by mail, and giving dimensions, and top weight of left, can have them sent to any part of the country, by express, and at just the price he was willing to pay, $2 to $3 single, $5 to $6 double.

J. FREDERICK FOSTER.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON.*

No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present his services, in supplying for patents superior to those offered inventors by others. Has made arrangements whereby an application is prepared and prosecuted by him. THIRTY DOLLARS must be advanced, as paid back by others will be remitted by him in case of failure to obtain a patent, and the withdrawal (through him within thirty days) of the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only have obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

E. H. EDDY,
Solicitor of Patents.

During the time I occupied the Office of Commissioner of Patents, E. H. Eddy, Esq. of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States. I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

PATENT OFFICE,

C. H. Eddy, Esq., Boston, Mass.

Sir,—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully yours, &c.,

THOMAS EWBANK,
Commissioner of Patents.

Boston, Sept., 1853 3tawdw(eow)1y

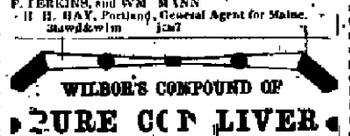
H. H. HAY, Portland, General Agent for Maine.

3mwd&wlm jan7



THIS valuable medicine, which has received the sanction of the medical faculty, by whom it is generally prescribed, and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITES, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged as the most efficacious article for the cure of Consumption and kindred diseases, yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing. In cases where ulceration has taken place in the lungs, this article has been found, by the most careful tests, to supply the very ingredient necessary for the formation of pus, and the complete healing of this delicate part of the human system.

This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste, which renders it an repulsive, particularly to females.—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry and a medicine has thereby been produced which is of unstimmable value in a climate like our own.

A long array of certificates might be given here to prove the efficacious character of this medicine, but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence.

For sale wholesale and retail by

ALEX'R B. WILBOR, Chemist.

FOR January, for sale by

GEO. R. SMITH

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by A. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is producing an impression on diseased of the lungs never before witnessed by the medical profession. (See certificates in hand of Agent.)

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and balmable vapor, passing into all the air cells and passages of the lungs, that cannot possibly be reached by any other medicine; there is a case at

ASTHMA CURED.

BROOKLYN, N. Y., Dec 20, 1853.

For about eighteen years I have been severely afflicted with the Asthma for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in a bed, nothing but the fear I could rise in my chair. My difficulty of breathing, and my sufferings, were so great at times that for hours together my friends expected each hour would be my last. During the past two years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I felt that I had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my worst fits of asthma, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have continued it with the greatest possible benefit, and am now comparatively well. Gratitude knows no amount of suffering this medicine has relieved me from. My advice to the afflicted is—try it.

MARGARET EASON.

CONSUMPTION CURED.

New York, Dec. 27 th, 1853.

I came to New York in the ship Telegraph, my native place is Boston, Mass. Shortly after I reached the city, my health grew poor, I had a bad cough, raised quantities of matter, which I was frequently raising out of the left side, and I felt very weak. A friend of my friends, a physician, prescribed for my case Consumption, and I have the pleasure of informing the public of my recovery, I obtained Dr. Curtis's Hygeana, or Cherry Syrup, and by the time I had finished the entire course, I was perfectly well. Feeling a debt of gratitude to the Proprietor, I feel it my duty to make this public acknowledgment, that they may know the benefit I received from his medicine.

Sold in Bangor only by S. E. PERKINS, No. 1 Kenduskeag Bridge.

Feb9 3mwdw

For the cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in the direction of facilitating the business of life—more than companions and even prolong the term of human existence, none can be more of more real value to mankind than this combination of Chemical and Medical skill, a vast number of the various throughout the land, has proven beyond a doubt, the medicine or combination of medicines, well known, has so surely overcome the varieties of pulmonary disease which have hitherto subject from one to a thousand and thousands every year. Indeed, there is now a boundant reason that believe a remedy has at length been found which can be relied on, to arrest the most dangerous affections of the lungs. Our space here will not permit a parallel any proportion of the cures effected by this medicine. But we would point out the following—and refer further inquiry to our American Almanac, where the agents below named, will always be pleased to furnish free, wherever, his full particulars and indisputable proof of these statements.

Office of Transportation on Lowell R. R., S. C., Aug. 4, 1852.

J. Ayer, Dear Sir—My little girl, four years old has just recovered from a severe attack of Malignant Scarlet Fever; her blood was so tainted, that every person that visited her pronounced her to be a fit subject for the disease. Having used your Cherry Pectoral in Calhoun family the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to give my child a teaspoonful every three hours, recommending in the morning, and by the Pectoral, she found a decided change for the better, and after a few days use her, was able to other drinks without pain.

Its use in this case, I should think, will save many a child from a premature grave, and relieved the anxiety of numerous friends and relatives of the Orphan Little Lucretia. I feel it my duty to publish the relief of the deepest gratitude prompts me to addressing you thus in regards to your invaluable medicine, and that every sufferer may know the benefit of your medicine.

I am yours, with great respect,

JOHN WOOD.

Sold in Bangor only by S. E. PERKINS, No. 1 Kenduskeag Bridge.

THE

Physicians' Sure Relief,

OR

UNIVERSAL PAIN KILLER,

PREPARED BY A. B. HART, M. D., NEW YORK.

This best article ever discovered for the speedy and effectual cure of Pains of all kinds.

More than one hundred thousand cases of Rheumatism, Neuralgia, Colic, Cramps and Spasms, Sprains, Colds, Sore Throat, Chill and Fever, Bruises, Burns, Heart-burn, Cholera Morbus, Dysentery, Diarrhea, Sick Headache, Lumbago, Sciatica, Lame Back, &c., &c.

Have been cured by this preparation within the past year.

20,000 Bottles Sold by one Agent in New York in Six Months!

One Agent writes from Western New York—"Send me One Hundred Dozen of 'Sure Relief, or Universal Pain Killer' as soon as possible, as I am all out. It is the most wonderful Pain Killer in the world. It is used by our best Physicians."

Another Agent writes, "Your *Pain Killer* has cured some of the worst cases of *Rheumatism* in this place; it is truly a *Wonderful Medicine*. Please send me two gross more by express."

"A patient writes, I have used all the *Pain Killers* of the day, but find none so worthy the title of *Pain Killer* as your's. It is also recommended to be a *Sure Relief for Pain*."

Another writes, "The Physicians' Sure Relief or Pain Killer, is the best Medicine in the world for Rheumatism. It has effected a cure upon myself which baffled all the skill of our best Physicians. Hundreds of such statements as the above might be adduced—One trial will convince the most skeptical.

Two applications have cured the most severe Rheumatic attacks.

One application has cured the most violent Cramp in the limbs.

Thirty drops has relieved pain in the stomach.

Six applications have entirely cured Rheumatism.

Twenty-five drops taken every twenty minutes has cured Cramps, Spasms, &c.

One application of hot water has cured Sore Throat.

Twenty drops taken every fifteen minutes has cured Bilious Cholic.

One application has cured Stitches in the Back.

One drop has often cured the most severe Toothache.

Fifteen drops taken every fifteen or twenty minutes will cure Dysentery and Diarrhea.

Twenty-seven drops has cured Sick Headache.

Twelve drops has often relieved Acid Stomach.

Three applications has cured Lame Side.

Twenty five drops within all cases cure Wind on the Stomach.

Ten drops every fifteen minutes will cure Cholera Morbus.

Three applications has cured Lumbago.

Three drops daily has cured Gravel and Kidney complaints.

Sudden Colds and hard Coughs can be cured by a few doses, as thousands can testify.

For kidney complaints the Sure Relief is an excellent remedy taken two or three times a day.

For spinal difficulties it is invaluable. One teaspoonful will relieve the most violent pain in the Stomach, and restore it to its natural feeling. When taken according to directions, it will speedily and effectually cure the complaints, and that horrible disease, the Cholera, Bowel complaints, and that horrible disease, the Cholera, has been proved in innumerable cases in New Orleans, St. Louis, Cincinnati, and many other large cities in the South and West, where the Diarrhea and Cholera have raged so fatally. Reader, if you are suffering from either of the diseases named above, or from pain from any kind whatever, be sure and try this great Relief and you will say with us, it is the best medicine in the world.

☞ Price, 12½, 25 and 37½ cents per bottle.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as safe and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is nauseous and nauseating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. Those *pills* produce no griping pain or unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms and symptoms, Indigestion, Languor and Loss of Appetite, Jaundice, Indigestion, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Limbs, for in truth, all these are but various sequences of disordered action in the liver. As a aperient, they afford prompt and sure relief in Costiveness, Piles Colic, Dysentery, Humors, Scrofula and Scurvy
